

LOCAL2YOU

Modern marketplace for aspiring artisans

"Support Local,
 Support Community,
 Support Dreams"

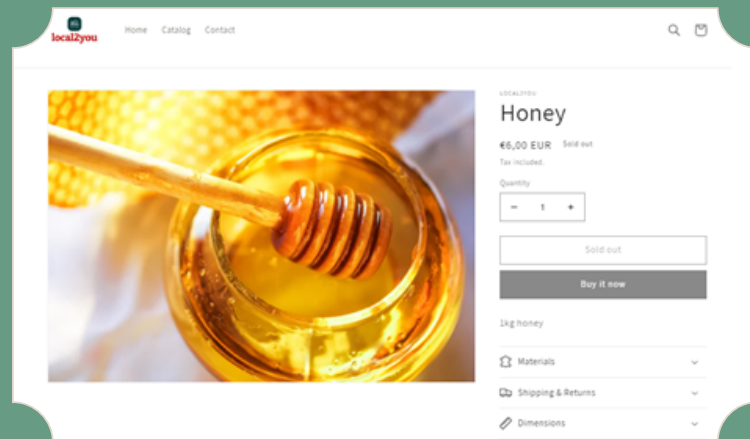

Introducing a modern information system solution for small businesses and artisans to transition into the 21st century. Local2You will offer a digital platform for local businesses to grow their services and prospective client base.

As young people no longer visit physical marketplaces, small vendors face an existential problem. As a result, our team decided to establish this information system and online marketplace to give local communities a method to grow their businesses and earn public support for their work.

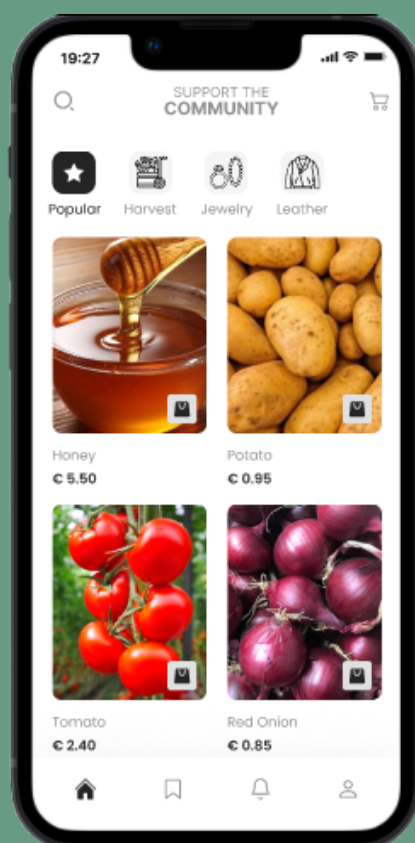

"There is no power for change
 greater than a community
 discovering what it cares for"

Local2You hopes to be part of the solution to food shortages and food waste by providing functionalities such as food donation to foodbanks and developing a sharing-based community.
